Summary

Looking forward to work in companies and extend my vision on
Technology through working on Real World projects and to bring out
of a purpose of myself towards the world.

Experience

Service4StartUp
Full Stack Developer
December 2018 - March 2019 (4 months)
Chennai Area, India

My Internship role is to create a Web-based Product. Built a standalone Web
Product through leading a team. We had many difficulties at first but we made
a software development approach to identify the problems and solved the
errors in the product. We also improved the efficiency of the website by overall
25% through Web-Optimization. This was an amazing opportunity to prove
myself as a web developer. This internship has really boosted my skills. It
had been great working with Service4Startup. They are very cooperative,
encouraging and patient towards my work and myself. I heartily wish the
company to grow towards higher standards in their domain. And Thank you so
much for letting me be a part of your long Journey.
